California Public Utilities Commission
505 Van Ness Avenue, Hearing Room A
(Corner of Van Ness and McAllister)
San Francisco

Recent events have raised concerns about the adequacy of the natural gas infrastructure in California to serve all gas demand in the state, both in the near-term and the long-term. To begin to address these concerns, the Commission's Energy Division has scheduled a workshop to gather information on and obtain analyses of the status of California's natural gas transmission and storage capacity, and the adequacy of that capacity to deliver gas to customers in California in the coming years. Pacific Gas and Electric Company (PG&E), Southern California Gas Company (SoCalGas), and San Diego Gas & Electric Company have been requested to make available at this workshop appropriate personnel and data to address the status of the capacity their respective gas systems and the adequacy of those systems to meet gas demands of customers on their systems. Utilities should be prepared to address the current capability of their systems to meet gas demand, and to provide their analysis of the future adequacy of their systems to meet gas demand in the near-term (over the next year), mid-term (two to five years) and long-term (over five years).

The informational workshop is open to all interested parties and any member of the public. Representatives of interstate pipelines and natural gas storage fields are encouraged to attend. If other parties are interested in making short presentations, they may arrange to do so by contacting the Energy Division.

Questions regarding the workshop should be addressed to Richard Myers of the Energy Division (phone: (415) 703-1228; e-mail: ram@cpuc.ca.gov).

	I95-04-044	Order Instituting Investigation on the Commission's Own Motion Into Competition for Local Exchange Service

Summary: On April 9, 2001, James L. Lewis, Sr. Vice President, WorldCom, Inc. (WorldCom), met with Ellen LeVine, advisor to Cmmr. Brown, and Cmmr. Brown, who joined the meeting later, in San Francisco. Also present was Richard B. Severy, Director, Public Policy, WorldCom. Lewis emphasized WorldCom's strong interest in providing local telephone service to residential customers. Lewis explained, however, that the price of unbundled network elements (UNEs) was so extremely high that it made market entry completely uneconomic. Lewis stated that for this reason, local competition for residential customers has failed to develop at all. Lewis pointed out that the Telecommunications Act (Act) requires Pacific Bell to set cost-based rates for UNEs. Lewis stated that this requirement must be met in order to allow local competition to develop and before Pacific Bell can be found to be in compliance with section 271 of the Act.

04/12/01 A00-10-035 Southern California Edison Company, for authority to lease available land on the El Nido-Sepulveda-Culver 66 KV Subtransmission Right of Way to The Great Sepulveda Car Wash, LLC

Summary: On April 10, 2001, John P. Hughes, Regulatory Affairs Manager, Southern California Edison Company (Edison), initiated a telephone conversation with Julie Halligan, advisor to Cmmr. Bilas. Hughes stated that the proposed decision contains language stating that 'should environmental claims be made on Edison subsequent to the lease, Edison shall not seek recovery ... from its ratepayers.' Hughes pointed out that this same language had been in prior decisions D01-01-039 and D01-01-043. Hughes stated that Edison filed petitions to modify D01-01-039 and D01-01-043 claiming that the language quoted above was overly broad and that the Company would not go forth with the leases unless the language was modified. Referring to draft decisions written by ALJ Duda, accepting Edison's language changes, Hughes stated that the ALJ Walker decisions should be held at least until the ALJ Duda decisions are acted upon.

Summary: On April 10, 2001, William A. Blase, President, External Affairs, for Pacific Bell Telephone Company (PacBell), wrote a letter (attached to the notice) to Cmmrs. Lynch, Bilas, Brown, Duque, and Wood. Among other things, the letter refutes the Office of Ratepayer Advocates' (ORA) claims that PacBell's application 'fails to meet statutory requirements to notify customers'. The letter also informs the Commission that ORA is mistaken in its belief that PacBell requested 'any further regulatory relief'.
